ProfileMax

ProfileMax is a lightweight, versatile modular rail system made from 85% post-consumer recycled aluminum. The ProfileMax system can be used to create an infinite variety of exhibits, from simple counters and back walls to elaborate towers and enclosures. This system comes in a standard anodized aluminum finish and different powder-coated colours are available. ProfileMax is an excellent choice for adding custom touches to any exhibit and is compatible with most other similar systems. This modular system is cost effective, can be easily reconfigured and expanded as exhibit needs grow or change. This system assembles quickly and efficiently with only a Torx wrench, no additional tools required.

ProfileMax

As with all of our manufactured products, ProfileMax is covered under our lifetime warranty. There are other aluminum profile systems available in the marketplace, but there is only one ProfileMax modular display solution. ProfileMax is a proprietary system that offers several advantages over and above traditional profile systems.

- No charge design and re-design service
- Set-up instructions with all our booths
- All cutting and bending done in-house
- Compatible with other similar systems
- Custom modular solutions
- Unique `Smart Kit` options
- No cutting fees
- No hidden charges
- Made from 85% post-consumer recycled aluminum
- Lifetime warranty

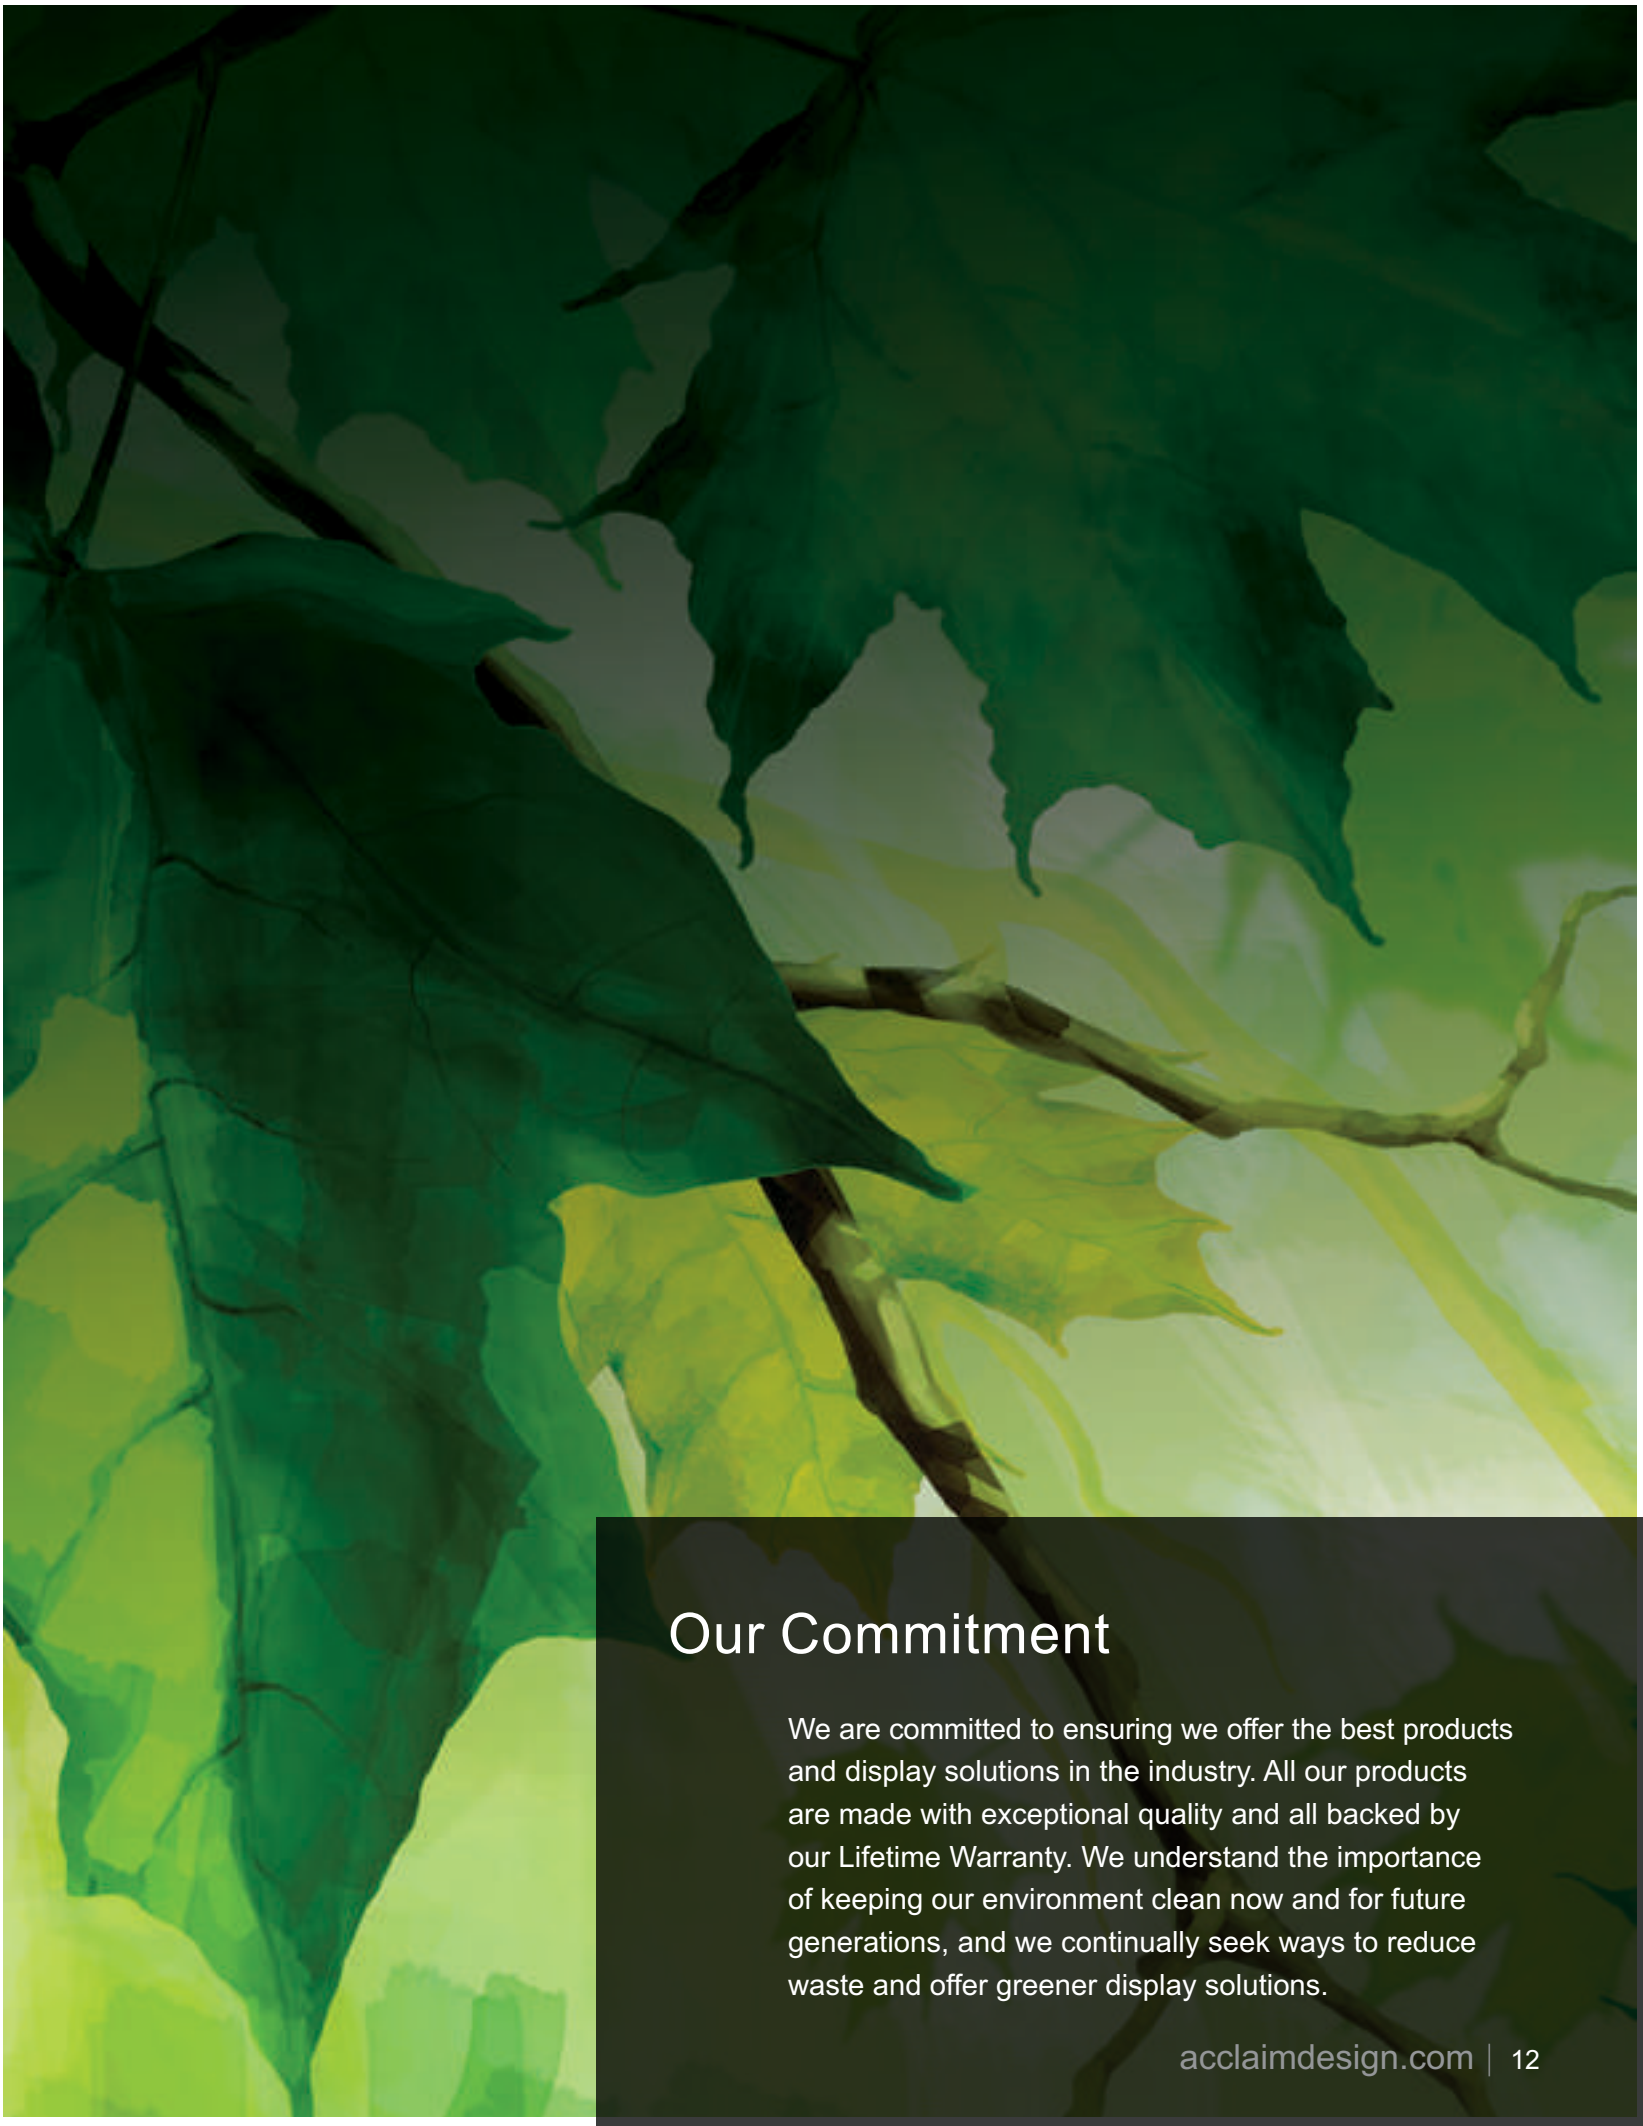
Lighting Attachments

Display specific attachments are available for all our displays. So you will always have the correct attachment for your display or booth.



Our Commitment

We are committed to ensuring we offer the best products and display solutions in the industry. All our products are made with exceptional quality and all backed by our Lifetime Warranty. We understand the importance of keeping our environment clean now and for future generations, and we continually seek ways to reduce waste and offer greener display solutions.

Warranty

Our products are manufactured to our high specifications with stringent quality guidelines and control. We pride ourselves in offering some of the best manufactured products in our industry and are confident that our clients are pleased with the quality and performance of their purchase.

We stand behind our product excellence and are pleased to offer a lifetime warranty against defects on all of our manufactured products. If the product is defective due to poor workmanship or material failure, it is repaired or replaced.

Environment

We believe it is everyone's responsibility to be mindful and respectful of the environment. We continually seek ways to reduce waste and introduce products that are kinder to the earth and minimize any negative impact on our environment. Modular displays are, by their very nature an environmentally responsible solution. They allow you to reconfigure, re-use and re-design your components to suit the environment or space as needed. We have been offering these environmentally friendly solutions for over 40 years.

- Our ProfileMax KitZ are manufactured using aluminum comprised of 85% post-consumer recycled material.
- We also offer fabric and carpet which is manufactured from recycled plastic bottles.
- We use only water-based inks in our graphics production to eliminate the use of solvent-based inks, which are harmful to the environment.
